SGMP Awards 18 Planner Scholarships to 2015 NEC & Expo

The Rance R. Willis Planner Development Scholarship program is named in honor of our 1989 Sam Gilmer Planner of the Year awardee and national president from 1991-1993.

SGMP and its Gilmer Institute of Learning are pleased to announce the 18 recipients of a scholarship to the 2015 SGMP NEC & Expo in Minneapolis on April 28-30, 2015. We received 40 applications this year and each was reviewed and scored by a panel of member peers after the applications were stripped of personal information (including name and chapter). Evaluation criteria for national scholarships include the volume of meetings planned or executed.

In addition to the scholarships made available each year by the national organization, many chapters also provide scholarships to their members to attend the NEC. Evaluation criteria for chapter scholarships include the level of chapter activity. Many of those processes have not yet been completed, so we encourage all members to contact their chapter leaders regarding these opportunities.
